

Pregnancy Support Center of Carroll County is providing support and information for women and men facing unplanned and planned pregnancies in a safe, confidential environment. All Services are free.

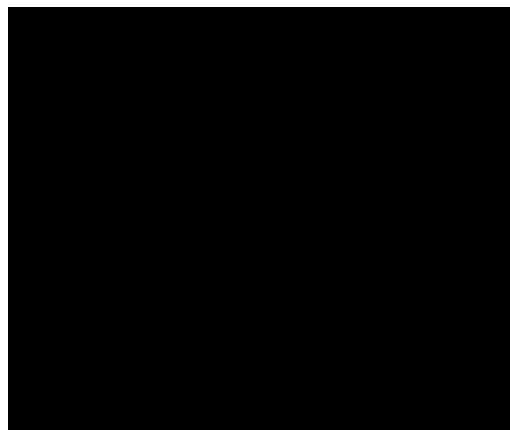

Client Advocates allow individuals an opportunity to discuss concerns about their pregnancy. We value the role education plays in our clients' ability to make informed decisions.

Clients may be experiencing not only a pregnancy, but issues with post abortive symptoms, Substance abuse, mental illness, homelessness and domestic violence. During the initial visit, we assess each individual. Clients can be referred to other community resources for care. A pregnancy verification can be provided to be used for Medical Assistance, WIC or other programs.

Our nurse sonographer offers free sonograms to clients who are not under a physician's care, to educate parents about fetal development.

Goals of the ultrasound are to confirm a viable intrauterine pregnancy, measure a fetal heartbeat and establish a fetal gestational age.

We also offer a series of parenting classes designed to educate and prepare clients for Parenthood. Fathers, family or friends are encouraged to participate in classes. Once graduated, clients visit our Boutique filled with brand new baby essentials.

Client support continues after the baby is born. Gently used baby and children's clothes, formula, diapers, wipes and other resources are available for families. Other designated care givers are welcome to visit our center, picking up necessary supplies.
